Ethio telecom zte adsl configuration

Configuration - ZTE 831 Step-1: Open the Internet Explorer, type 192.168.1.1 in the address bar and press Enter. Step-2: Type user name as admin and password as admin and click on OK Button. Step-3: On the left hand side, Click on the system. Step-4: Click on reset and restart. Step-5: On the right hand side, check reset to factory default setting button and click on restart. Itwill take 90 second. Step-6: On the left hand side, select configuration , then select internet option. In right side clickon the edit button of the suitable connection. Step-7: New window will be opened, click on next. Step-8: Again new window will appear, here you will see four option but you have to selecteither ppp over Ethernet or bridging. if you select bridging then click next again new windowwill be opened then click next. On the last window click on apply. Step-9: if you select ppp over Ethernet click next , the window named "ConfigureWAN IPSettings" will be appeared, click next. The window for "Configure Broadband User Nameand Password" will be opened, give the following details.Service name: dataone (for BSNL Broadband users it may vary for depend upon the service providers)User name:given by exchangePassword : :given by exchangeSelect "always on " then next. On summary page click apply. Step-10: On the left hand side, click on system click reset and restart. On the right side clickrestart without selecting factory default setting. Step 11: if you earlier select bridge mode then you to create dial up otherwise in pppoe modebroadband will direct work. The perfect spot does it all, be it romance or your router! To avail the best signal and network connectivity, make sure you keep your ZTE ZXDSL-831CII router visibly and not facing the wall or behind the curtains Auto channels might fail you once in a while; believe that you're smarter than the ZTE router! Find a seamless wireless channel instead of what the router finds automatically. This would ensure that your signal does not interfere with that of your neighbors. If you're running a Windows-based PC, you can see what channels neighboring Wi-Fi networks are using Press Start > type "cmd". Open Command prompt In command prompt type netsh wlan show all You will see a list of all wireless networks and the channels being used in your vicinity. instead of using "Auto" for the control channel, Pick the channel that has the lowest interference Check If ZTE ZXDSL-831CII has dual-band, the more commonly used band would be 2.4GHz; however, switching to 5GHz would bring out better results! It depends on your device though; if you're running an old lad, you might have to switch back to the conventional Gaming consoles/media streamers work better when connected through Ethernet cable of ZTE ZXDSL-831CII; in fact, as you might not be moving your TV all over the house, why connect it to the Wi-Fi at all? The gaming consoles / video streaming devices flood the network with data. This means that if possible, you should consider hardwire (using Ethernet cable) the devices that tend to consume a lot of bandwidth. Although this can sort of defeat the purpose of having wireless network, but it can actually help your overall network speed of ZTE ZXDSL-831CII if you can hardwire the bandwidth hogs Here is something important to note! On schedule, folks, reboot your ZTE ZXDSL-831CII router! Though routers are built to constantly be running at all times, simple tweak like regular power cycling (a fancy way of saying unplugging the power cord and shoving it back up) helps with most issues. Rebooting your ZTE ZXDSL-831CII can fix Internet connection problems, improve slow moving connections and resolve wireless issues altogether. Try unplugging your ZTE modem on a quarterly basis to stay proactive (Never reset, always reboot modem) MS Ethio Published at : 5 years ago #RouterConfiguration #Tutorial Amharic #EthioTutorial ZTE DSL Router Configuration in Amharic - MS EthioTutorial in Amharic Best Tutorial ZTETutorial ZTE DSL RouterHow to Tutorial in AmharicTutorial Router ConfigurationDSL Router Configuration in AmharicZTE DSL Router Configuration in Amhariczte zxdsl 831zte series configuration#zte routers!t routerzte wireless routerzte access pointzte zyx10 w300 wifi repeaterzte Change wifi passwordzte wifi configurationwifi routerzte wireless router wifi setup This page shows you how to login to the ZTE ZXDSL 831CII router.
